IPSE – Identités Politiques Sociétés Espaces (ed.)

## **Doing Identity in Luxembourg**

**Subjective Appropriations – Institutional Attributions – Socio-Cultural Milieus**

Luxembourg – international financial center, European administrative center, destination country for immigration? This empirical study provides insights about a society that has hitherto largely eluded scientific investigation and observes the processes of identity construction in globalised conditions. The interdisciplinary team of authors exposes the processes of subjective appropriations and institutional attributions at work in the fields of languages, spaces, perceptions of self and others as well as everyday cultures, and identifies for the first time socio-cultural milieus in the Grand Duchy. The findings of the three-year research project uncover the ambivalences and dynamics of a multicultural and multilingual society.

In the Research Unit **IPSE – Identités Politiques Sociétés Espaces** at the University of Luxembourg, researchers address topics of social relevance. Particular emphasis is put on the analysis of social and cultural identity construction

processes.
